

Nanoparticles Being Injected Globally - What You Need to Know

Abundant published literature shows that injecting nanoparticles for therapeutic purposes has been under research and development for years. Nanoparticles (aka lipid nanoparticles or lipids) are very small, usually only a few nano meters in size. 1 nano meter = 1 millionth of a millimeter = 1 billionth of a meter. **Just one jab inserts billions of nanoparticles into the blood stream**, which carries them to all organs of the body. **And they cannot be uninstalled!**

Through investigation of the literature (journals, patents, etc.) about nanoparticles, we can determine the **causes** of the adverse side effects of injections by cross correlating them with the adverse side effects of having certain nanoparticles injected. This process of reverse engineering is known in the medical field as aetiology. If you have not heard about this, it is because the people who run the world do not want you to know. Basically, they are performing alchemy, black magic and sorcery, so they operate in secrecy and use disinformation, misinformation and distraction to achieve their goals. **But you do not need to be a victim! Study the table below to understand how important your choice is.**

| Nanoparticle (Cause) | Functionality | Adverse Side Effects |
|--|--|--|
| Spike proteins and instructions to produce them | Facilitate binding to ACE2 receptor sites for viral entry to cells | Abnormal blood clotting, strokes, myocarditis, damage to brain, heart, bone marrow, platelets, and red blood cells |
| Graphene-oxide-coated antennas and routers | Telecommunications inside and outside the body | Blood clots |
| Graphene-oxide-coated robots and computers | Execute specific programs, like DNA origami | Blood clots |
| Ferritin-encased iron quantum dots | Self-assembling coatings to regulate iron concentration for magnetic manipulation of atoms | Suppressed chelation and too much iron |
| Snake and scorpion venom peptides | Facilitate crossing of the blood-brain barrier | Neurological disorders |
| Quantum dots coated with Luciferase (aka SM-102) | Bioluminescence for authentication and identification with NIR light-reading cameras | Damage to the central nervous system, the kidneys, the liver, the respiratory system, fertility, and unborn children |
| HIV-1 fragments | Gain of function for reverse transcription and permanent DNA alteration | Become a chimera (i.e., hybrid species) no longer having God-given DNA but rather DNA with Satan's genetic markers |

Around 2600 years ago, God spoke to the prophet Daniel. *“And whereas you saw iron mixed with ceramic clay, they will mingle with the seed of men; but they will not adhere to one another, just as iron does not mix with clay.”* (Daniel 2:43) This Bible prophecy is being fulfilled today, as Satan and his agents are attempting to bind together technology with biology by injecting nanotechnology into humans to mix it with their DNA (seed). DNA identifies a person and serves as a template for future generations. Changing the DNA is an insult to God, and it results in eternal separation from God.

4 Steps to 24/7 Total Mind Control – What You Need to Know

1. **Injection** - Billions of nano telecommunications and computing devices are covertly delivered by hypodermic needle or microneedle array tattoo patch. (Full disclosure is not required under emergency authorization or under autocratic governments.)
2. **Dispersal** - The bloodstream carries the nano telecommunications and computing devices to all parts of the body.
3. **Great DNA Reset Day** - In the near future, the short process of DNA origami (folding) via 5G/6G Wi-Fi signals will activated, so that each victim's DNA is turned into a quantum computer with a common global pattern recognizable by a global quantum computer system
4. **Quantum Entanglement** - The global quantum computer system is connected to all the DNA quantum computers all over the world for 24/7 mind control. Wi-Fi signals will no longer be needed. Widespread enslavement in the Metaverse is complete and inescapable. (This will probably occur on the same day as the Great DNA Reset.) **For Heaven's sake and your own sake, reject all Mark of the Beast injections!**
