

Genetic and Digital Transformation and Choices

Today, we are at the end of a long battle between good and evil. We all must choose our life direction and what kinds of transformation we will experience in the future.

This paper describes the current choice before us from Biblical, scientific, and technological perspectives. It is intended for anyone who has held out from sacrificing his or her body to science.

Most holdouts merely look at surface issues, like adverse side effects and greed. But in reality, invisible spiritual forces are at work. The right choice ultimately means resisting Satan and drawing near to King Jesus (James 4:7,8).

The great counterfeiter

Everything that Satan does is a counterfeit of God's wonderful creative work and design. It has been a 6000-year battle between God and Satan. The Lord Jesus Christ came to undo the devil's works (1 John 3:8) and bring restoration (2 Corinthians 5:17), but the devil continually counterfeits God's works.

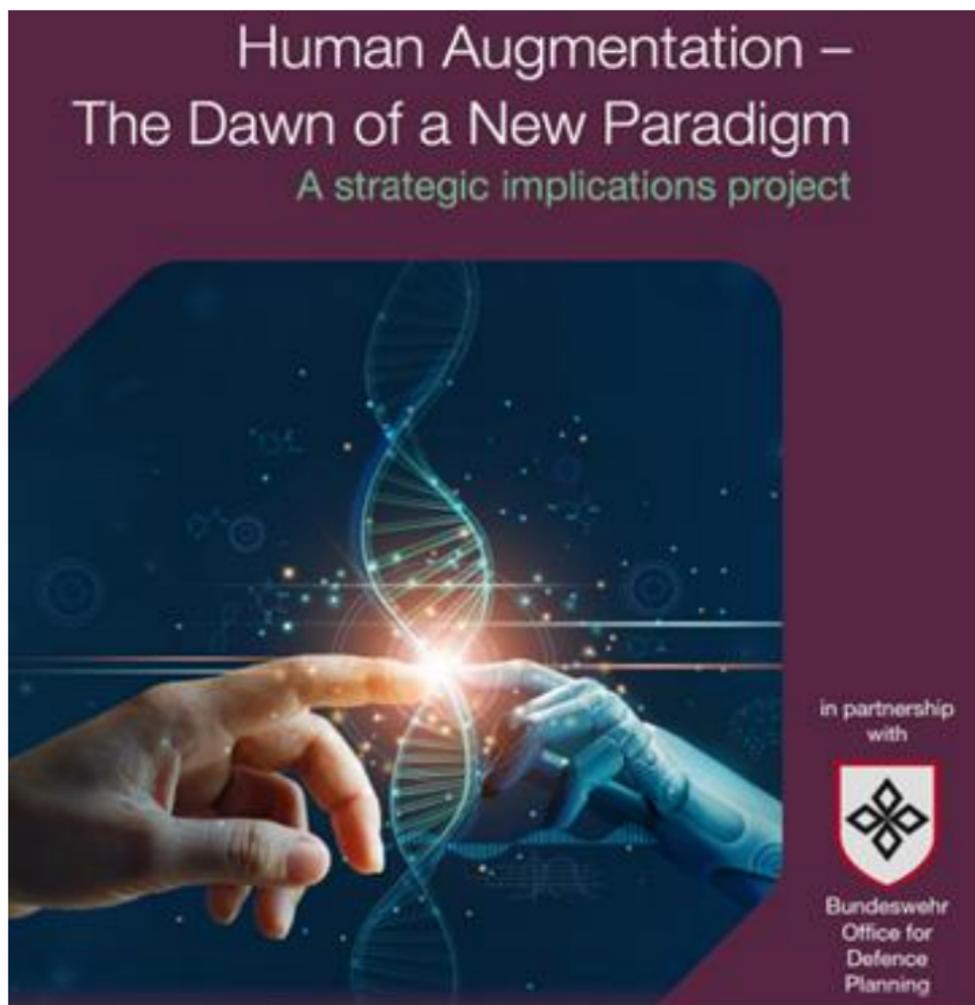

Two relationships

Our Father in Heaven wants people to have a love relationship with Him (Deuteronomy 6:5). He wants His words to be on His people's hearts (Deuteronomy 6:6,7). Satan wants worldly things to be on people's hearts.

Our Father wants His words to be part of His people's daily lives so that as they use their hands in their work or think (inside their foreheads) about daily affairs they will think about Him and do His will (Deuteronomy 6:8).

Satan wants his digital system to be a part of people's daily lives so that they will not

think about God when they use their hands or foreheads in daily affairs.

Two transformations

The Lord Jesus wants people to be transformed by the renewing of their minds (Romans 12:2), but Satan wants people to be transformed into his digital Beast kingdom. His agents have tapped into forbidden knowledge through divination for hundreds of years to fulfil

Francis Bacon's dream of a technocracy and his own dream of dwelling in the Temple of God (2 Thessalonians 2:4). The science and technology of today provides a counterfeit command and control system in which the end game is total control over people's minds through brain-to-computer interfaces and quantum entanglement.

Why would any sane person want to be in this system? Because it appeals to the lust of the eyes, the lust of the flesh and the pride of life (1 John 2:15,16). On the contrary, following the Lord Jesus requires going in the opposite direction - denying oneself, taking up one's cross and following Him.

More than adverse side effects

Many people now know that something very nefarious is going on all over the world today and causing abomination at the molecular level, but few people realize the ultimate purpose – to change people at genetic and atomic levels and enslave them. It is good to be angry at the adverse side effects, but it is important to see the big picture from God's point of view.

A hard choice

Joel 3:14 says, *"Multitudes, multitudes in the valley of decision! For the day of the Lord is near in the valley of decision."*

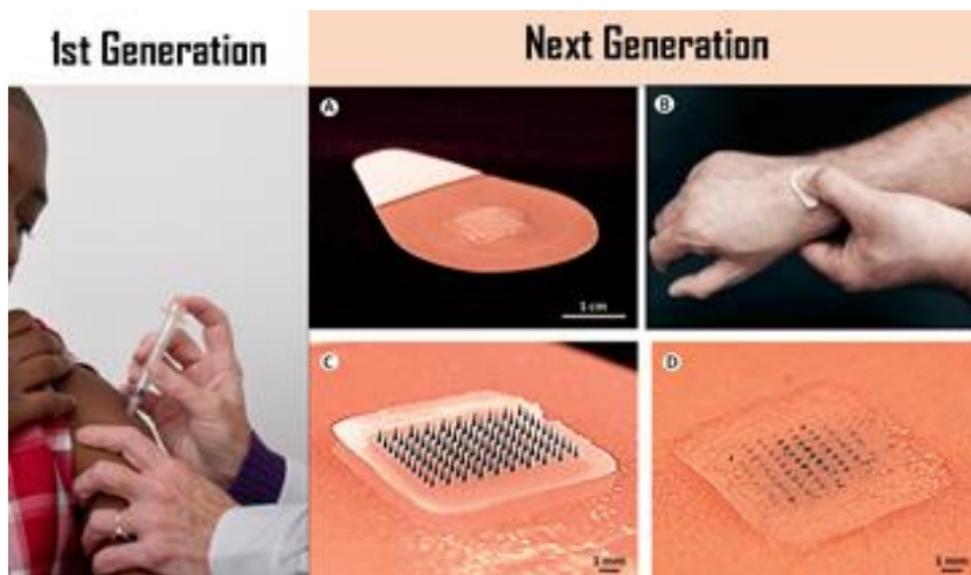

The whole world must make a hard choice - a freewill choice - to accept or reject transformation into synthetic / digital humans and the new GCT system. It is the separation of the wheat from the tares (Matthew 13:30,40).

There has to be a final test of loyalty prior to the harvest. This is it.

It all revolves around the Mark of the Beast (Revelation 13:16-18, 14:9-11), which is also called the "abomination that causes desolation" in the holy place

(Daniel 11:31, 21:11; Matthew 24:15). The holy place is human bodies, which were designed to be the Temple of God (1 Corinthians 3:16).

The Mark is forcing everyone to make a choice in terms of life direction and a choice of transformation. Most people have already decided their life direction – they will be transformed into the image of the Beast. The rest of us need to be transformed by the renewing of our minds through faith in the Lord Jesus Christ.

Two health care systems

Jehovah Rapheka wants us to trust and obey Him for preventative health care (Exodus 15:26) and restorative health

care (Proverbs 3:5-8; James 5:14,15). Elijah, Elisha, the Lord Jesus, and His disciples even had the ability to heal supernaturally through authority given from the Father. This authority has been granted to us too (Matthew 10:8, Mark 16:18; Luke 10:9,19; Ephesians 2:6). It is an awesome privilege to have this authority and to participate in the Lord's restorative work. Sadly, most Christians do not believe in supernatural healing - even some with very good character and Bible knowledge.

Tragically, health care systems around the world are being transformed into gene and cell therapy (GCT) run by artificial intelligence (AI). If you are not aware of this, you need to learn.

COVID merely kickstarted GCT without most people knowing it. Moderna calls their version a new "operating system." Recall that Bill Gates made his billions from Windows operating system upgrades. This is why he has invested so much money in many different GCT delivery systems.

Biotech Mandate

This technology is so hot now that the president of the United States recently issued an executive order which mandates biotech being made a priority in all businesses. See [President Biden's Executive Order on Advancing Biotechnology and Biomanufacturing Innovation for a Sustainable, Safe, and Secure American Bioeconomy](#).

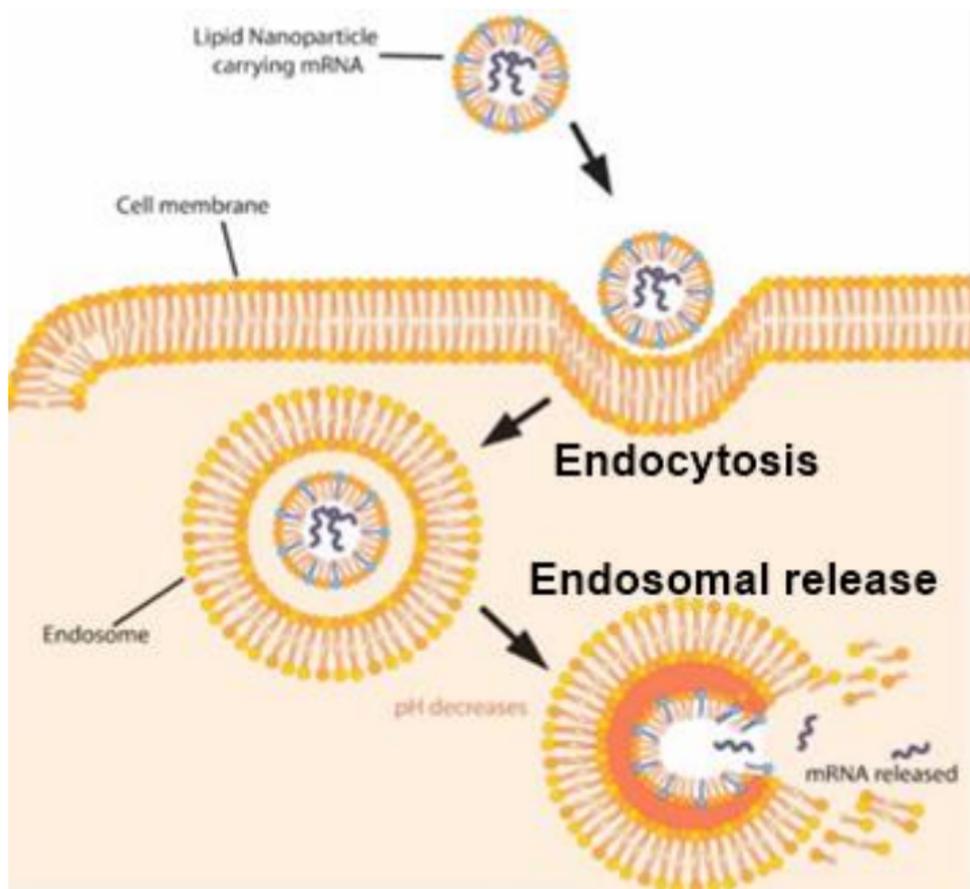

Normal DNA change process

A retrovirus can naturally reverse transcribe into complimentary DNA and integrate with the DNA in the nucleus. In fact, many viruses naturally integrate with the DNA. However, God designed our immune system to kill those cells and at the same time produce new antibodies to fight future attacks. God is awesome! The purpose of a fever is to kill those cells with modified DNA. Glory to God (Psalm 139:13,14)!

Some people who have compromised immune systems that may not fully kill all the changed cells, but that is an exception in normal people – unless they have become synthetic humans. Some normal people do die from COVID, but they also die from normal flu. There is no significant change in the data of people dying from normal flu and from COVID. All the fearmongering is a psychological operation to get people to trust in science rather than trust in the Lord Jesus Christ.

Synthetic DNA change process

However, the experimental injections in vogue today change the DNA in a different way. First, a virus is put it in a lipid envelope to trick the immune system, go through the process of endocytosis and endosomal release to bypass the normal immune defences. This is a technology developed since the 1990s. It is very mature and evil. See [Let's talk about lipid nanoparticles](#)

The process is also aided by artificial intelligence and quantum computing technology, which enable manufacturers to run combinatorial optimization simulations of how certain gene changes would affect protein expression in a person. This was stated by the founder of D-Wave quantum computers in 2012. See [The black box that could change the world](#).

Biology and Technology

BIONTECH

POSTHUMANISM

Here is an overview of the artificial process by which billions of people have had their DNA been changed at a cellular level:

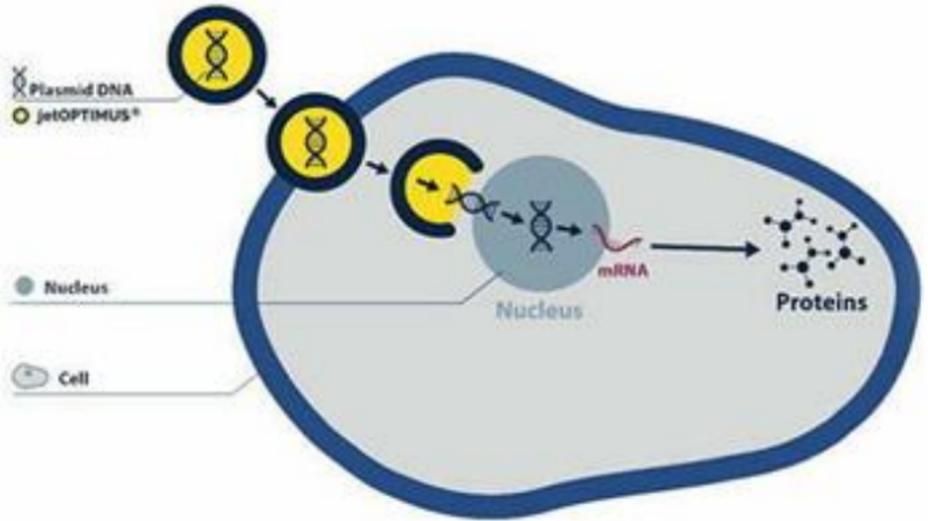

1. Design a bioweapon and all variants in a quantum computer, and include retrovirus properties for gain of function to change the DNA. This is how gene therapy works.
2. Hide some of genomic details using Dr. Ralph Baric's "No See'M" technology. See [Systematic Assembly and Genetic Manipulation of the Mouse Hepatitis Virus A59 Genome.](#)
3. Simultaneously, create genetic modifiers of different kinds that encapsulate the same bioweapon in a protective lipid covering for Trojan horse properties.
4. Release the bioweapon.

5. Use all forms of media to promote fear and trick people in each society into getting gene therapy.
6. Wait as the lipid nanoparticles carrying mRNA move through each person's bloodstream. (This is the case for all brands, since the bioweapon itself has mRNA.)
7. Allow the natural process of endocytosis to move the lipid nanoparticles carrying payload safely into the cell cytoplasm without it being destroyed
8. Wait for endosomal escape, i.e., the release of the payload in the cytoplasm.
9. Allow the natural process of reverse transcription of the payload via of long interspersed nuclear elements (LINEs) and the natural enzyme reverse transcriptase in the cytoplasm, producing complimentary DNA.
10. Allow for the natural process of integration of the complimentary DNA (cDNA) into the cell nucleus via the natural enzyme integrase, thus permanently changing the person's

DNA and turning him or her into a chimera. Tragically, this removes his or her name from the Book of Life (Revelation 3:5, 20:15).

Furthermore, according to Dr. Luc Montagnier, who won a Nobel prize for his work on HIV, SARS-CoV-2 has HIV-1 fragments. This makes it a class VI virus under the [Baltimore virus classification system](#) – a retrovirus – for the purpose of gain of function to change people’s DNA. See [Uncanny similarity of unique inserts in the 2019-nCoV spike protein to HIV-1 gp120 and Gag](#). His colleague Jean-Claud Perez further illustrated this in his paper,

Wuhan CV19 Synthetic Origins and Evolution.

Here are some other academic papers that explain more:

Digitalization of humans

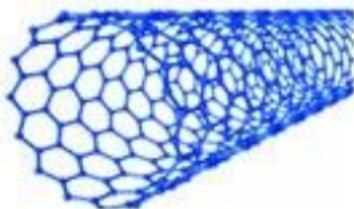

Besides DNA modification via a reverse transcription and cDNA integration, the current gene therapy injections also include a third strand of DNA composed of quantum dots. These have been part of the payload, but they currently lie dormant. Activation will require a process called [DNA origami](#), which turns a person's DNA into quantum computers that can be quantum entangled with the Beast quantum computer network.

Quantum Dots

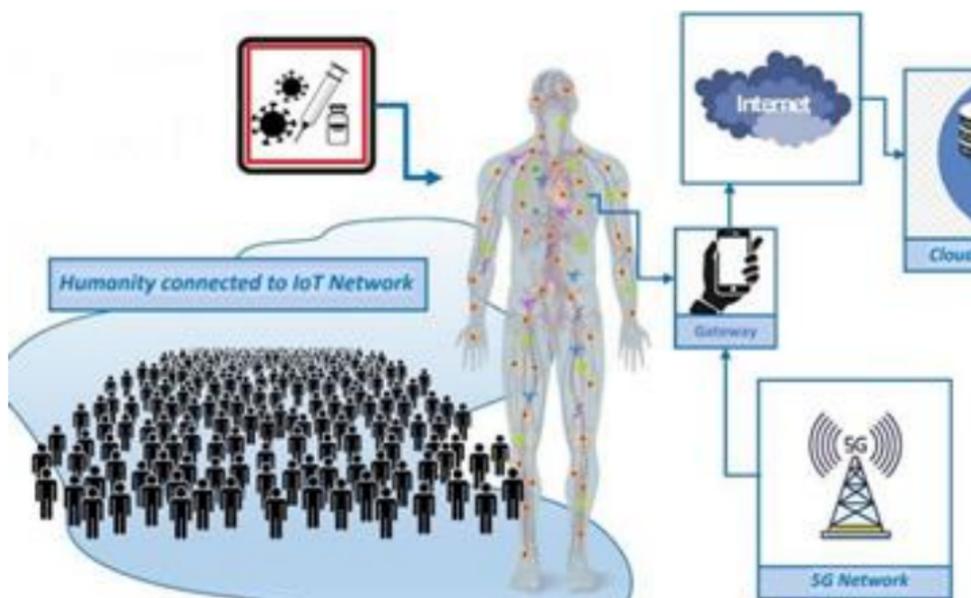

Amphiphilic Cyclodextrins

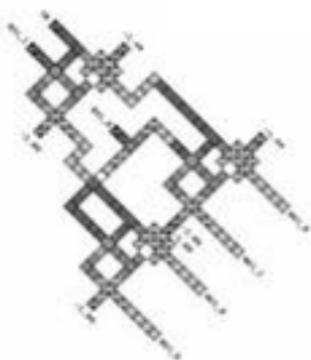

Viral Carrier

The [DNA origami](#) process requires a sophisticated intrabody wireless network composed of nano telecommunications devices, like nano routers and bow-tie rectennas.

These have been found in people's bloodstreams and major organs. See [Pattern identification in c0r0n @ v | rus vaccines: nanorouters](#).

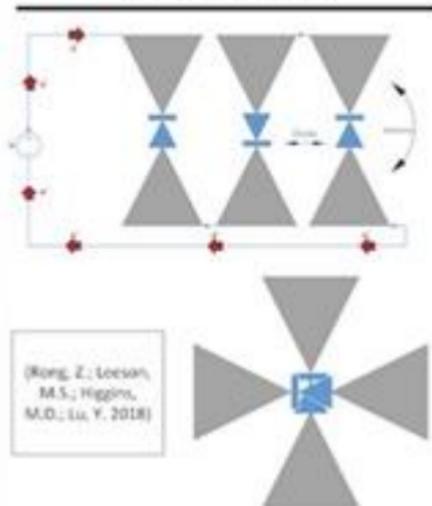

Nanorouters in the injections enable human bodies to become Internet of NanoThings (IoNT) servers.

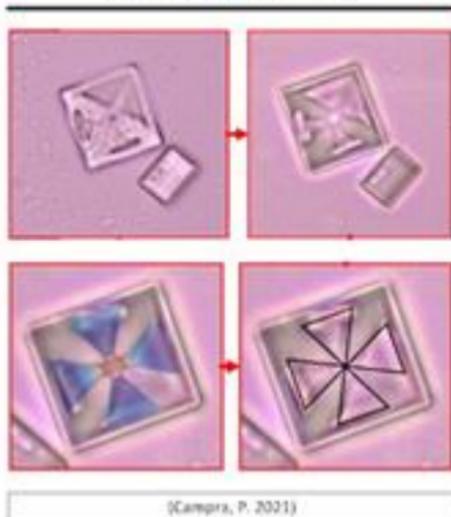

This technology enables a communication client / server model.

The discovered circuit shown above corresponds to the field of quantum dot cellular automata, which is characterized by an ultra-low energy consumption factor and high processing speed. Installation of this hardware in the body of the inoculated people is done without their informed consent, and it precludes any discussion about issues like confidentiality, authentication, privacy, trust, biohacking and usage in Big-data projects.

Muestras de la vacuna

Bow-tie rectenas found in the injections

A nano-rectena is a combination of an antenna and a rectifier device. This makes it possible for it to be used to harvest energy from THz and higher frequencies. Nano-rectenas can also operate in lower frequency ranges and even by radio frequency, which makes them ideal for powering wireless nano-networks and their connection applications to the Internet of NanoThings (IoNT).

For further study, see:

- [Internet of Nano Things: Security Issues and Applications](#)
- [CORONA: A Coordinate and Routing system for Nanonetworks.](#)

Activation of nano devices

When these lipid nanoparticles are activated, they can be used for various purposes, but the ultimate purpose is [DNA origami](#) to turn people's DNA into quantum annealing processors. Then, they can be quantum entangled with the Beast computer system.

The process of human digitalization started many years ago with electrical gadgets, radios, movies, television, personal computers, the internet, and smartphones. Now, brain-to-computer interfaces via nano computing and nano telecommunication devices is where things are going. The final step is total mind control in which Satan and the Antichrist sit in the human body (what was designed to be the Temple of God) for command-and-control purposes (2 Thessalonians 2:4)

Basically, this is fulfilment of Daniel 2:43:
“As you saw iron mixed with ceramic clay, they will mingle with the seed of men; but they will not adhere to one another, just as iron does not mix with clay.”

This is the infrastructure required for full 24/7 counterfeiting of communication with God. It is scientific fact that these systems have been under development for many years. And it is also public knowledge that people have graphene quantum dots and other nanoparticles in their bloodstreams.

The finality of the Mark

The Lord Jesus spoke three parables that seem related to the Mark:

- The parable of the marriage feast (Matthew 22:1-14)
- The parable of the big dinner (Luke 14:16-24)
- The parable of the lost sheep (Luke 15:3-7)

He wants us to let go of relationships with people who are too busy and worldly minded to join the feast.

Can people take the Mark and repent? Based on Scripture and scientific and technological information, there seems to be no indication of reversing the damage done. God is able to do anything, but a

practical approach is to apply the teaching of these three parables.

The severity of God

Romans 11:22 says, *“Therefore consider the goodness and severity of God: on those who fell, severity; but toward you, goodness, if you continue in His goodness. Otherwise you also will be cut off.”*

In the days of the Gospels and other New Testament writings, the godliest people – the Jews – rejected the Lord Jesus Christ. Most studied the Bible and went to church and prayed and did what good Jews were supposed to do. But they didn’t trust in the Lord Jesus as Christ / Messiah.

Romans 10:3,4 says, *“For they being ignorant of God’s righteousness, and seeking to establish their own righteousness, have not submitted to the righteousness of God. For Christ is the consummation of the Scripture teaching for righteousness to everyone who trusts.”*

Also, Hebrews 12:16,17 says that Esau, sold his birth right for one morsel of food, but afterward, *“when he wanted to inherit the blessing, he was rejected, for he found no place for repentance, though he sought it diligently with tears.”*

The Lord is longsuffering toward us, not willing that any should perish but that all should come to repentance (2 Peter 3:9), but even His patience has time limits.

Prayer and use of time and energy

1 John 5:16 says, *“If anyone sees his brother sinning a sin which does not lead to death, he will ask, and He will give him life for those who commit sin not leading to death. There is sin leading to death. I do not say that he should pray about that.”*

Can we pray that God will have mercy on loved ones who took the Mark? There is no prohibition, but John seems to be saying that there is no longer any need to pray for them. They have made their choice. To pray for them is like praying for the physically deceased – something not prescribed in the Bible.

Instead, God wants us to focus our energies and prayers on those people who still have not taken the Mark and can be redeemed. The problem is that we tend to focus on people we want saved rather than people whom God wants saved. He wants us to seek out people who appreciate the invitation and free meal at His Son's wedding banquet!

Time is short. We must focus our time and energies and prayers where God wants us to focus them.

Facing danger ahead

According to the warnings of the Lord Jesus in Daniel 12:1 and Matthew 24:21, the days ahead will be the most difficult in all of history. Therefore, we should pray often that we will be counted worthy to escape all the things that will come to pass, and to stand before the Son of Man (Luke 21:36).

We will be wise to get out of smart cities, anoint our property with oil and pray for God's protection. We should obey the governing authorities in all areas within

their jurisdiction, but our bodies belong to the Lord (Romans 12:1, 1 Corinthians 3:16) and are outside their jurisdiction.

If we do our part, God is certainly able to protect us and provide hidden manna if we are no longer able to buy food.

Good news!

The good news is that God is helping His people stay a step ahead of what the enemy is doing (Ephesians 3:10) if they want to know. With the help of Holy Spirit, we can link the spiritual and the physical, or the Biblical and the scientific and technological. We can be prepared for the battles ahead, and we can be overcomers. Best of all, the Lord Jesus is coming back to stop Satan and all this evil technology and establish His visible Kingdom on earth very soon!

Sharing

This paper may be freely shared, but please only share it with people who have not received any experimental injections since 2019.
